It is easy to pull answers to everyday problems from your most inner beliefs about life: applied religion and philosophy, so to speak, that works well in your present context. Just remember that your crystal view of today's reality may not resemble tomorrow's in the least, no matter how right it is.
- 19 Jan ♃ △ ♃ 08:41 pm EST Tran-Nat   
Good opportunities are afoot for combining new ideas with old support systems, so don't hesitate to blend a radical departure with something very conservative - this is the time to make it work. Trust your judgement - and you'll find yourself capable of the seemingly impossible.

Health and wealth conspire to put you on the map, so tend your resources and they will tend you. Fitness and energy is as important as what's in your wallet, and that alone can give you the appearance of success. Make sure the daily routine is fine-tuned and you'll be hearing about it from admirers.
- 24 Jan ♃ □ ♃ 04:54 pm EST Tran-Nat   
Where inspiration may have flowed freely before, you will now be tempted to force it when it doesn't spring up on cue. This will only result in creating a number of blind alleys for yourself, so best leave it be, even though the situation may be irritating. Better to save the energy, wait till later.

One of the greatest challenges of breaking new ground is establishing a clear vision and holding on to it, despite the vagaries of the mundane world. That's the challenge all around right now, as it is difficult to focus on what seems to be obvious improvements in life, love, business, you name it. Just as you think you've got it all together, the mind wanders, the objective eludes the eye. If this seems like it's contagious, it is, as it's a general trend of which you are only a part. To that extent, the most likely places you'll find what you are looking for are the quests of others who also are trying to find their hearts. The more you can share the search, the more likely each is to find the journey's end in sight.

This is the perfect time to get your message across and turn your personal beliefs into concrete reality. You won't have to preach a sermon, either, as events will have a way of bearing you out and proving your point to others. Enjoy it fully - such freedom from moral dilemma is unusual.
- 10 Mar ♃ ♀ ♃ 03:56 pm EST Tran-Tran   
Radical mysticism, idealistic visions, new insights into the linkage between the past and future: all these things are accentuated now, as you come into a new cycle. Experimenting with artistic norms and breaking the rules satisfy an inner need, yet may exact a toll if you are not conscientious about it.

You find you have generally good, even support for your major thrusts in life and can get backing from relatively conservative sources that trust your homing instincts. Imagination tempered with responsibility is what is rewarded and forward progress is measured in strides, not leaps and bounds.

Riled-up emotions can stir up harsh words, so watch your mouth and think before you speak. It's easy to get into a pointless argument, so when in doubt, agree to disagree if at all possible. Don't let annoying disagreements get your goat - put your patience hat on and do your best to act like a saint. It's something to shoot for, anyway.

Showing your feelings may not be the best thing to do right now and keeping to yourself could save you from unwanted entanglements. Be staunch, do not stoop to complain, and you will gain the respect of all for your worldly reticence. Send requests through channels and things will flow more easily.

Putting down roots and building a solid foundation is essential to your sense of security now. This means coming out of your emotional shell in some sense, and you may find that very hard to do - but it's essential nonetheless. Caring is not weakness, but strength.

A sports car gets moving a lot faster than a freight train, but it's the train that delivers the payload. Take your time using reliable if gradual methods, and by the time you are up to speed you will be unstoppable. You'll also find it less tiring and who knows what interesting things you'll encounter on the journey?

- 24 Jun ♃ △ ♁ 07:32 pm EDT Tran-Tran   
This year-long period which happens twice in every 45 years makes for a curious backdrop which everyone has to deal with but which is not necessarily individually specific. It's a time when radical and conservative trends, whether in politics or technology, are at odds but are strangely comfortable bedfellows, each relying on the one to fuel the other. It makes for a period of surface tension which belies the fact that not much new or solid is really happening. Lots of smoke and mirrors, surprisingly little substance. At the same time, a somewhat insubstantive peace reigns that has in it the seeds of real confrontation and revolution yet to come.
- 01 Jul ♃ △ ♀ 08:34 am EDT Tran-Tran   
New frontiers, hot prospects, expanded operations are not hard to sell right now - in fact, the soft sell will be the most successful. Whether you are promoting your affections or your consumer product, act as if it's the only way to go in the world and is pretty much of an accomplished fact already. The more faith you have in yourself, the more others will have in you, and the more likely things will work out right for you, since everyone is expecting them to.
- 02 Jul ♃ ♂ ♃ 10:26 pm EDT Tran-Nat   
Making up your mind is the problem and the solution may well be not to do it at all. A good time for letting disparate elements split apart naturally and let each take their own natural path. When in doubt, reserve judgement and let each of your own diverging opinions have its own deserving place.

- 24 Jul ♀ ✖ ♅ 02:44 pm EDT Arc-Nat   
 Keeping your act fresh will give you an assured audience, and that doesn't require bending over backwards just to get noticed. Just avoid stale routines and do what comes naturally to put life into each moment in its own way. Renewing the little things is the key to ever-wakeful awareness.

 Now is the time for making long-term financial and emotional investments, as you are more than likely to get as much or even more than you bargained for. Take the opportunity to secure as much as you can so that you will have something spare when opportunities are rare. Hedge your bets!
- 02 Aug ♃ △ ♃ 07:24 am EDT Tran-Nat   
 Now is the time to put on your seven-league boots and make major advances along the path of your choice. You have large, swinging energies behind you and you should maximize your gains while the wind blows in your direction. Confidence is your best ally, if you think you can do it, you can.
- 04 Aug ♃ □ ♂ 08:08 am EDT Tran-Nat   
 Life is a struggle, and sometimes it seems pointless to lift a finger as each effort seems to be wasted or has to be done over a different way. Amendments is the name of the game unless you can afford to wait and sit things out for a while until energies are back up to par and wastage comes less easily.
- 06 Aug ☽ ♂ ♀ 12:13 pm EDT Prog-Nat   
 Flashes of insight, problem solutions are likely to surface in conjunction with the general energy high these few days. Don't force them, just let them appear and scoop them up as you speed along, as your momentum will be lost if you tarry too long. Swing your mallet like a polo player on the gallop.
- 27 Aug ♃ ♂ ♀ 05:25 am EDT Tran-Tran   
 "To serve and protect" is the motto that best fits the cycle that now dawns in your life. Taking better care of such material concerns as work and health becomes an article of faith. You see the big picture where these things are concerned and realize that it can only come together when all the details are in place. Sometimes, in trying to get these details all lined up, you might lose sight of your objective. Remember: Look beyond the trees to see the forest.

 This is a time when large-scale efforts and the best of intentions can suddenly change, go awry, be shot down, or get reborn. Not just for you, but for everyone around, so keep that in mind before putting all your eggs in one basket. It's a time of discovery not so much from new revelations but from uncovering what was wrong, popping the overinflated balloon, spotting the phony. If it looks too good to be true, it probably is, and the profit goes to the one who finds it out first. The same can apply to your heart, where promising more than can be delivered is a distinct possibility, and its revelation can come as a shock. Use normal precautions, get confirmation, before you go whole hog.

 Strong inner support and strength allows you to be a firm shoulder for anyone to lean on, including yourself! Self-confidence is bred of sure inner knowledge, not guesswork, so you can go ahead being sure you're right, with external support even from more conservative quarters.

 A thousand different opportunities seem to present themselves, with as many ways to lose your shirt. If you must put your oar in, diversify both physically and emotionally so you can cut your losses if need be. You could hit it big or go for broke, if that's your style -- or wait...
- 09 Oct ♃ □ ♀ 06:19 am EDT Tran-Nat    
 You may find for a time that opportunities present themselves, the implementation of which would violate your inner standards. You need not make a painful choice, however, as you will find a little patience reveals that the conflict can be avoided, if you will just use some restraint.
- 17 Oct ♃ ☿ ☉ 01:12 am EDT Tran-Nat    
 Stop-and-go energies within make it hard to stay on one subject at a time, so be ready to diversify. Avoid commitments that require steady or constant attention in favor of those that will let you come and go as you please. What goes unfinished now can be completed later if you design it that way.

 This year is what might be termed a time of profit-taking and cashing in on positions taken morally and financially and of establishing newer and more solid structures on which to base both income and moral life. It is a time to dispense with prejudice but not abandon caution, to reach out to others but without selling out to them. This is the overall background on which your personal life is being played, so you will have to roll with it where necessary, though you may not now, or ever, be in the thick of it. If you are aware of the larger picture going on around you, however, you can only benefit from the trends you find yourself immersed in.

 This is a good time to introduce new ideas and concepts into an already ongoing situation - ideas that spontaneously come from within. It is a time when your own inventiveness may be mined with some regularity, when you may call on the Muse rather than waiting for her to call on you. Invest it wisely.

 Avoid the temptation to sweep out the old and ring in the somewhat untested new. It could be a detriment to both. It would be better to take some extra time to find a comfortable place for both and move on with double opportunity and protection. Where there is conflict, let it resolve itself.
- 14 Nov ♃ ♂ Asc 02:08 am EST Tran-Nat   
 Big boost in energy and confidence, like a shot in the arm. Similar effect on body, however, so look out for raised blood pressure, explosive emotions, things that happen from just too much going on. Be willing to take a rest when needed and this is a super fine time and ego-reinforcer par excellence!
- 15 Nov ♃ ♂ ♀ 04:14 am EST Tran-Nat   
 You may find that new or unfamiliar situations and ventures have you feeling somewhat out of control or feeling like flying off the handle inside. This is primarily internal and not particularly related to the reality of the events concerned. That knowledge may be cold comfort, but a help.
- 13 Dec ♃ △ ☽ 03:45 am EST Tran-Nat   
 Easy-going feelings rule the day and you're likely to be right on base in your inner judgments of the situation, particularly where long-term judgements are concerned. A feeling of largesse lets you forgive and forget easily, but don't write off situations that might repeat themselves to your detriment.
