## ***Introduction***

### **Transits to Angles**

Location charts respond to transits very much like your natal chart. Although Jupiter, for instance, may not be transiting your natal Ascendant right now, it is transiting your relocated Ascendant somewhere, and that somewhere is likely where you'll easily get a lot of extra attention and enhanced personal prospects if you go there or start doing business with people there. The same goes for the rest of the planets, so you can travel to seek or to escape their transits at the place of your choice.

### **Progressions to Angles**

Although you can't escape your natal progressions, you can go experience them someplace else, particularly where a favorable progressed planet relocates right on an angle and thus gets extra emphasis. As with transits, your progressed relocation paths will tell you where it's happening according to the nature of each planet. Being that they are progressions rather than transits, the effect will be more internal than external, but noticeable all the same.

## ***Planets on Angles***

Any planet on one of the angles (Ascendant, MC, Descendant, IC) of your relocation chart will be greatly strengthened when you are at the place of relocation, very much like if it were on the angles of your natal chart. If the Sun is on an angle, you'll have more confidence; if Mars is there you'll have more energy, and so on. Moreover, you don't have to actually go there to get the effect. Having a planet on a relocated angle will accentuate that place for you even if you are only doing business with people there over the phone. You have an accentuated quality to people in such places that you may not have elsewhere.

### **Transit Pluto Sxt DS (Strong)**

You're in for a few years of engendering a lot of faith in yourself here, just by showing up. You look reliable, somehow, like when the chips are down you can pull everyone through, so you might as well live up to the potential and be a fount of certainty to those around you. If you say it will be OK, it will.

### **Progressed Mars Sqr AS (Medium)**

You're in a several-year period of personal wastefulness here that saps your resources because it's hard to focus your energies. False starts, detours, and general timing problems need to be addressed so that you can get the mileage you naturally should. When in doubt, just wait until you're sure you really have to make your move.

### **Progressed Moon On AS (Medium)**

You're coming out into the daylight here, after a couple of years of being more inclined to lay low and stay behind the scenes. Emotionally, you're ready for prime time here, so it's a good place to get out there and interact, let your feelings be known. You may not feel the same where you are now, but go here and see if it happens.

**Transit Saturn Tri DS (Mild)**

You're in for a year or so of fairly consistent support from the situation in this locale, at least insofar as you show yourself to be a part of its establishment and don't rock the boat. People look to you for security, so remember the feeling for when it comes time to reverse the process.

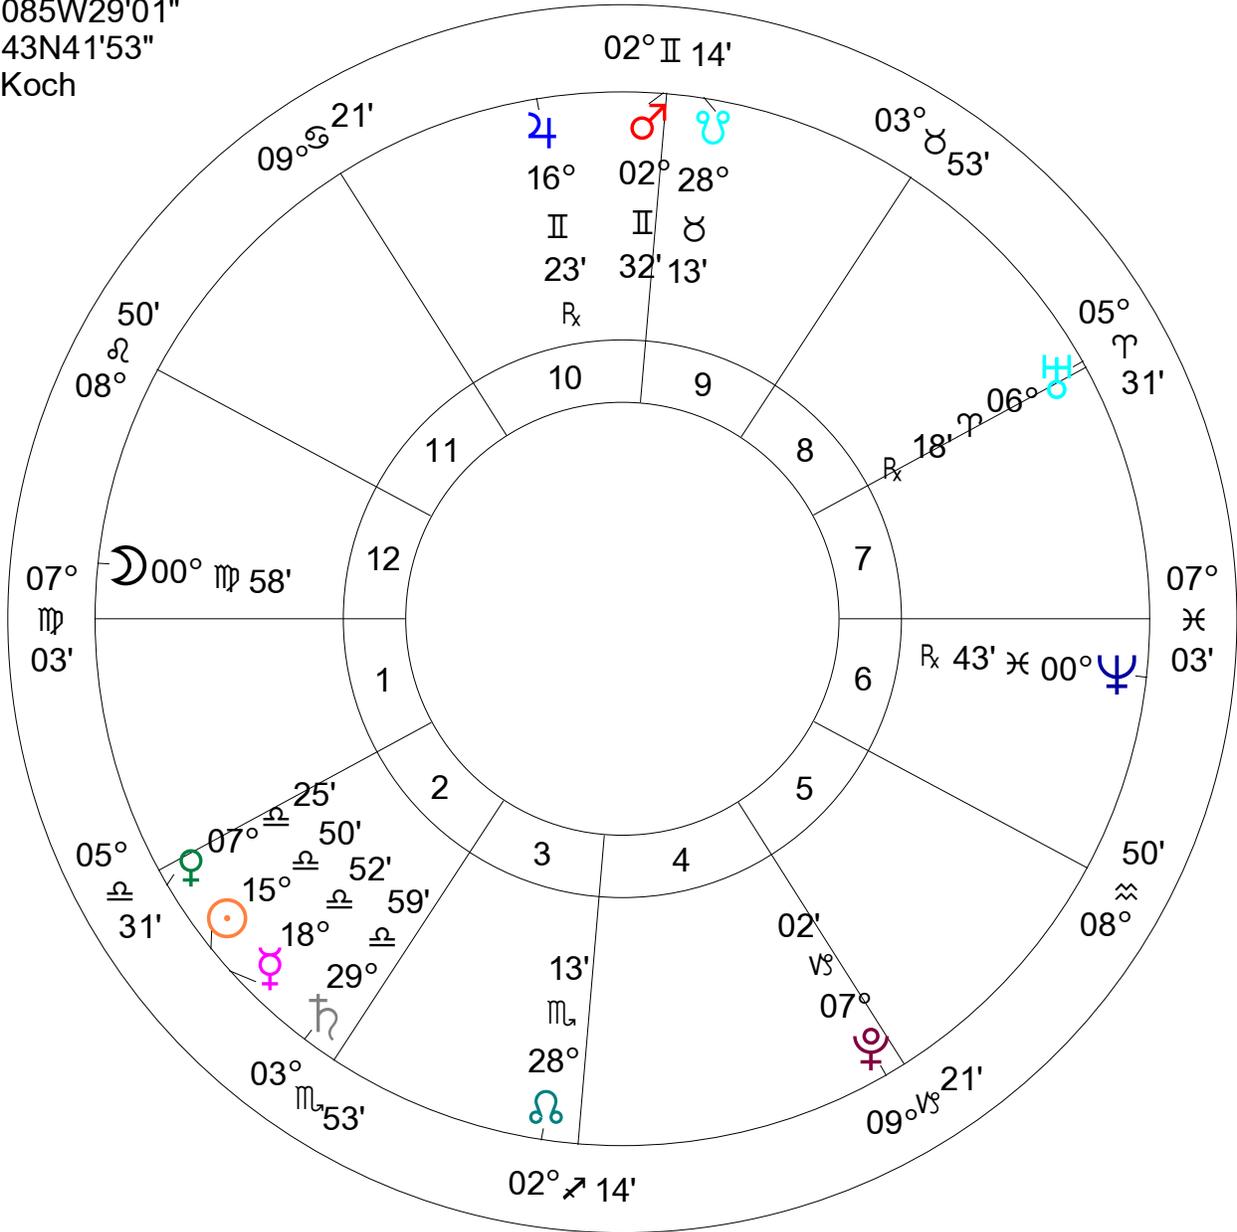

**Transit Neptune On DS (Mild)**

If you want to be the object of fantasy, this is the right year or so to be here. People will be seeing you through rose-colored glasses and projecting their dreams on you every time you show up. Trying to be your actual self, however, might be more of a challenge, as your beauty (your image, at least) is very much in the eye of the local beholder.
