#### Mercury Stationary Retrograde in 04th House

The next three weeks may cause you to step back and rethink your course and reset your bearings to make sure you are really on the course you intended. Do not hesitate to question fundamental values in order to get to the heart of what you believe and resolve inner conflicts that may arise. Small insights can net you large gains, particularly in the future stability of your ship. Rock your own boat before others do, and you'll be the better off for it. By the end, you may find risk reevaluation highly useful, particularly when you depend on others to evolve into what you will lean on in the future.

#### Mercury Square Saturn (Retrograde)

You may feel mentally depressed or restricted. Perhaps this is not the time to try to solve any serious problems or make important decisions. It could be hard to think.

Mercury Stationary Direct in 04th House

A period of some delays, detours, and slowdowns has turned the corner and with a little more fine-tuning life operations will be not only back to normal but improved. Issues having to do with direction and creative focus begin to resolve themselves and turn out to have been only temporary delays, not fundamental problems. Once you have buttoned down the last of the recently arisen distractions, you can put your mind fully on the game and get back to being the you you always thought you were, only better. The exercise provided by internal troubleshooting and introspection brings you back stronger than ever.

Refurbishing goals can be at a premium during this period, but resolving and accomplishing them may be harder than it first appears. The key is to hammer out one central approach from many, and don't be afraid to compromise. What benefits all benefits each, though it may not seem so at the beginning. The trick is to resolve details without getting bogged down in them. Feel free to sweat the small stuff later if you can agree on the general direction. You have to know where you are headed before you can steer -- and one of the best ways to find that out is to look back where you've been.

Attempted major moves may have become muddled of late, but the time is at hand to choose the best and let the other ones ride. Stop wasting your energies in half-hearted promotion and get on the bandwagon that will take you where you want to go. That may require putting your shoulder to the wheel (one wheel, only) so everything can get underway. Throw yourself into it and you'll begin to feel the acceleration of dedicated movement, the momentum building from entrained energy. You will soon be painted with the broad brush you now choose to wield, so wield it well, with enthusiasm.

Sometimes painting life with a broad brush can cause you to miss messy details that then slow you down. The next three weeks are a great time to pause and make sure the rug rats and ankle biters are not in a position to sidetrack your whole operation because you ignored them. It's time to give the small things their due so they can serve your larger purpose. By doing so, you may discover a better version of your own vision as well. Don't hurry, you've got time, and you may find that in the end tapping resources you had ignored will trigger a rising tide that floats all boats, not just your own.

#### Mercury Stationary Direct in 08th House

The last few weeks' complexities and contradictions begin to clear up and you've turned a corner on finding out what you can get elsewhere and what you can provide yourself. If you need to borrow, it will be in the cards, but you may equally find that a little inventory of your past resources will reveal you've actually got all you need if you try out a new way to tap it. Brilliant ideas that seemed elusive are headed back into the pipeline but will still need a little sorting out before you can bring them to fruition. Putting previous obstacles behind you will give you the chance.

This begins a three-week period during which you have the opportunity to refine and perhaps repurpose the way you project yourself in your surroundings. Round off the raw edges and pull in any potential entanglements that might be slowing you down. You have not only the right, but sometimes the obligation, to change your mind in order to insure consistency and personal impact. Toward the end, this may particularly include tightening up solutions to previously resolved issues to be sure they are well in hand. When you've got all your ducks in a row, you won't have to look back.

**Mercury Conjunct Ascendant (Retrograde)**

Just when you thought you were home free, someone called time out and now you have to rework your game plan and refocus your approach. Mercury backpedaling on your Ascendant

means you will have to touch up your personal presentation and make sure you are leading with the best -- and the most truthful -- game plan. What may seem like reversal is only delay, and you'll be glad in the end that it happened, giving you time to clear previously overlooked stones from your pathway. Once past selective makeover, you will find your image successfully bears scrutiny at every level.

Mercury Conjunct Sun (Retrograde)

Mercury's reversal directly on your Sun is a road sign for coming reevaluation of your fundamental energies, the way you project yourself from the inside out. Perhaps it is time to again put to words and rephrase just what it is that you're all about, and fine-tune your inner beacon's lens so that your light shines more clearly on the world. The message is: Don't take yourself for granted and don't let precious resources sit idly by when you can put all your balls in play. Don't just deal from a full deck, but from a full and knowing heart, without reservation.

Mercury Stationary Direct in 12th House

If loss of communications has left you clueless, you can start collecting more reliable evidence again. When exterior sources fail to provide the information you need, you may have to rely on your inner resources and come to your own conclusions without external input. However, if you can avoid tying yourself down, that would be a better choice, as things may be going on without your knowledge that will surface soon and give you a better handle on your operations. When the mist clears, you'll have the opportunity to really make yourself seen and heard.

2008-10-26 04:25 am 15° $\underline{\text{a}}$ 50' ♃ ♂ ☉

Mercury Conjunct Sun

Mercury turning back to action on your Sun means this three-week period of reshifting is best rid of through the sheer force of your personality. Where things had gotten tangled, a willing smile and a positive attitude will cut through the confusion and clear up misunderstandings. Where you might have done well before to delay and see which way the wind blows, now you can be the wind itself and blow away the mists that may have limited visibility for all concerned. Don't expect instant sunshine, but you can count on clearing skies and relieving rays to decorate the coming days.

2008-10-29 10:25 am 20° $\underline{\text{a}}$ 29' ♃ ♂ Asc

Mercury Conjunct Ascendant

Mercury making its turnaround on your Ascendant can give you the opportunity to be the person with the first word in -- the solution-maker -- if you let it happen. Don't be afraid to chime in with new ideas, even if there has been a lot of confusion of late, because now is the time when resolutions finally become available and forward motion can begin again. People will tend to look to you to be the instigator, so don't disappoint them, let your ideas out of the box where they can do some good. You may not get everything you want, but you'll be first out of the gate, and the beginning is half of everything.
