Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are bold and impulsive, tending to act first and ask questions later. You come on strong, and others may experience you as somewhat self-centered and possibly arrogant. You appear to be single-minded and daring -- a leader.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are long-suffering and able to take a lot for the sake of your beliefs and ideals. In this sense, you are very future-oriented. You are intuitive and at home with the psyche and psychological. A sense of the mystic too. You are able to carry ideas and dreams into reality, to make the spirit matter.

Sun in Pisces

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury

You have a basic self-esteem that is plain to all who meet you. Your sense of discrimination and innate good taste means that you know good items from bad and are a connoisseur of all that is fine and beautiful. A love of authority figures (men in particular), plus an appreciation for authority and your elders in general, makes you welcome at any social scene.

Sun Conjunction Venus

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional

confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

You tend to be stubborn and unable to make solid career choices. You get carried away and go off in directions contrary to your actual needs. Your judgment in vocational matters is often off, sending you on a wild goose chase. In addition, there is possible difficulty with authorities and the law and/or differences with older people. To use an old adage, you can (at times) be your own worst enemy. The advice of a trusted friend regarding career is to be recommended.

Sun Square Jupiter

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

Sun Trine Saturn

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

Sun Trine Uranus

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Sextile Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

Yours is the most practical of environments. You can manipulate every idea or situation and put it to good use. Emotions are seldom a priority, and you are always very practical and ambitious. Your career is central to everything you do. Farsighted and traditional, you enjoy success and the successful. You are, for the most part, unmoved by tears and feelings.

Moon in Capricorn

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

Moon Square Neptune

Your close ties with home and family, plus your career interest, may cut into your social life and personal charm. Others may find you somewhat preoccupied and lacking in the social graces. You may feel some regret or tension from this situation.

Moon Square Ascendant

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunction Midheaven

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or

sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

Mercury in Pisces

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

Sun Conjunction Mercury

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Square Mars

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

Mercury Square Jupiter

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Trine Saturn

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You have deep commitments and appreciate sacrifice and duty on the part of others. At home in the world of the dreamer and mystic, you have great intuition. You are always willing to sublimate and take the back seat. Domestic at heart, you love family life. A true romantic. Musical, psychological, poetic, gentle.

Venus in Pisces

You have excellent taste and could be expert in all matters of art and discrimination. You can always pick out the valuable and worthwhile. You value and appreciate all that is fine and beautiful. Perhaps an interest in older people or authority.

Sun Conjunction Venus

A born charmer with an innate love and appreciation for other people, especially children. A sense of color, of music and all of the arts -- the beautiful and the comfortable. Always welcome in a group, you are a connoisseur of things bright and kind.

Moon Sextile Venus

You love words and ideas and sharing them through writing, speaking, and so on. You love to talk. You appreciate and value the intellect and all mental activities, have great taste and an eye for all that is fine. You are sharp when purchasing, a connoisseur.

Mercury Conjunction Venus

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

Venus Square Mars

You don't like making career decisions, and you can get downright confused when it comes to making the right choice. You may not appreciate advice, and this makes the problem somewhat more complex. It could be important for you to get the counsel of a trusted friend, someone who can advise you as to the right choices. Whether you happen to like them or not, once you have determined the right route, you should take it.

Venus Square Jupiter

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

Venus Trine Uranus

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

With direct drive, you always head straight to the heart of the matter. You are candid, even blunt or brusque in manner. No bells or whistles needed, for you like simple living and could be an outdoors person. You have an urge to be free, to be challenged and tested, and would rather travel far than be stuck in routine.

Mars in Sagittarius

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sun Square Mars

You are sharp-tongued. Arguments and debates are probably life-long companions. You communicate with your emotions and sheer drive as much as by words and thoughts. Your verbal and mental presence (by sheer insistence) is something to behold.

Mercury Square Mars

You may not like displays of emotion and pushy people, or at least find them challenging and thought-provoking. Your basic drive and ambitions may tend to ignore or brush off your more caring and loving qualities. Emotional tension.

Venus Square Mars

You don't lack drive, but you may lack good judgment at times. You could rush into things before thinking them through, and thus not have adequate planning and forethought. You may take a career in something unsuited to your real feelings and emotional demands. Your emotions could bring on problems in your job and affect your career. Arguments on these issues abound. It may take some careful footwork on your part to find a way of making a living that does not hamper your feelings.

Mars Opposition Jupiter

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A career in communications of one kind or another is indicated, for you are a kind of living link or channel. You love investigations, reporting, writing, speaking,

broadcasting, advertising -- any and all networking. Forever curious, you love searching for answers and following leads.

Jupiter in Gemini

You may tend to take paths at right angles to your real ambitions and self-interest. Trouble with authorities or older people can result. Your struggle to succeed is aided when you show self-control or discipline and find that middle road.

Sun Square Jupiter

Your ideas and plans are not always the most practical or expedient. Fond of grand schemes, verbalization, and the like, these ideas don't often boil down to real solutions. Your main path may involve taking many of your ideas with a grain of salt.

Mercury Square Jupiter

You have a habit of ignoring what is best for you and taking roads that you know will lead nowhere, but might be fun to take. Career decisions may have to be made that don't cater to your particular likes, dislikes, and value system.

Venus Square Jupiter

Your emotions and drive tend to make things difficult for you, particularly in career decisions. Vocational moves may stifle you and be at the expense of your emotional well-being. There is a push/pull sort of thing.

Mars Opposition Jupiter

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have difficulty owning up to any selfishness, sexuality or mental undercurrents of any kind. You may attempt to deny your passions, but you need to accept instincts, attachments, and all things natural. Allow your desires to function unhindered. Take off the straight-jacket. Feel it.

Saturn in Scorpio

There is a real love of science and natural laws. You are a hard and tireless worker, with absolute determination and the ability to accomplish great projects with ease. You are fiercely loyal to your friends. Also, very integral... perhaps too sober.

Sun Trine Saturn

A real problem-solver, the more tedious the better. Able to reduce any subject matter to the bare bones. Heavy-duty thinker. Could be very serious or philosophical. Enjoy study and thought. Very methodical and practical in approach.

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are very innovative in your approach to home, family, and the domestic scene and can really see how to get into traditional values. You have natural insight into sensations, feelings, and just living life. You like to relax by gardening, cooking, and being with family. You get off on the humdrum.

Uranus in Cancer

Breakthrough flashes of insight with tremendous originality and independence are typical. A natural sense of invention and a love of all things electrical and of communication in general. A born traveler, not afraid to be alone. You go your own way.

Sun Trine Uranus

Your independence and general unconventionality may sometimes be offensive to others. You like to go against the grain, break free, and relish the unusual and different. You may rebel against tradition, the past, history, and the like.

Moon Opposition Uranus

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

Venus Trine Uranus

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The

romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Square Neptune

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant

You are most original when concentrating on areas of home and family where you feel secure. You are a private person and find all the pomp and circumstance of public life repressive and boring.

Uranus Opposition Midheaven

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

Neptune in Libra

The pursuit of your ideals and self-image is often at the expense of your feelings and emotional life. Others may not go along with your sense of mystery and other-worldliness. You struggle to find a balance between dreams and reality as you know it.

Moon Square Neptune

Your independence and unconventional manner may be at the expense of ideals and dreams. You may alternate between following your more traditional ideals and shattering your self-image via some very erratic and unusual behavior.

Uranus Square Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This may result in disappointment when others fail to measure up to your expectations.

Neptune Opposition Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

Pluto in Leo

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Trine Ascendant

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury 00°27'

You have a basic self-esteem that is plain to all who meet you. Your sense of discrimination and innate good taste means that you know good items from bad and are a

connoisseur of all that is fine and beautiful. A love of authority figures (men in particular), plus an appreciation for authority and your elders in general, makes you welcome at any social scene.

Sun Conjunction Venus 07°26'

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus 07°52'

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunction Midheaven 08°19'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars 00°14'

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This may result in disappointment when others fail to measure up to your expectations.

Neptune Opposition Ascendant 00°24'

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Square Mars 00°41'

You don't like making career decisions, and you can get downright confused when it comes to making the right choice. You may not appreciate advice, and this makes the problem somewhat more complex. It could be important for you to get the counsel of a

trusted friend, someone who can advise you as to the right choices. Whether you happen to like them or not, once you have determined the right route, you should take it.

Venus Square Jupiter 00°54'

Your close ties with home and family, plus your career interest, may cut into your social life and personal charm. Others may find you somewhat preoccupied and lacking in the social graces. You may feel some regret or tension from this situation.

Moon Square Ascendant 01°41'

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

Moon Square Neptune 02°05'

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus 04°23'

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant 06°04'

You don't lack drive, but you may lack good judgment at times. You could rush into things before thinking them through, and thus not have adequate planning and forethought. You may take a career in something unsuited to your real feelings and emotional demands. Your emotions could bring on problems in your job and affect your career. Arguments on these issues abound. It may take some careful footwork on your part to find a way of making a living that does not hamper your feelings.

Mars Opposition Jupiter 06°18'

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Square Neptune 06°28'

You tend to be stubborn and unable to make solid career choices. You get carried away and go off in directions contrary to your actual needs. Your judgment in vocational matters is often off, sending you on a wild goose chase. In addition, there is possible difficulty with authorities and the law and/or differences with older people. To use an old adage, you can (at times) be your own worst enemy. The advice of a trusted friend regarding career is to be recommended.

Sun Square Jupiter 06°31'

You don't spend a lot of time thinking out your problems, considering solutions, and

the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

Mercury Square Jupiter 06°58'

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

Venus Square Mars 07°12'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Trine Saturn 00°50'

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

Sun Trine Saturn 01°17'

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

Venus Trine Uranus 01°22'

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Trine Ascendant 01°58'

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to

helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto 02°22'

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven 02°34'

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Sextile Midheaven 04°52'

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus 05°45'

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

You are a late bloomer, and your childhood should be an easy one. However, in your early teens (somewhere around the age of 14-15), you will take a distinct turn toward the more inner and subjective. This could mean a number of years when you feel insecure, very alone, and quite on your own. The years from 14 through 21 or 22 will be times of

intense searching and self-examination during which you may not have much outwardly to show others as to who you are or what you can do. You could be perceived as hard to reach, and you may feel that no one recognizes who you are. Fear not, for this is not a long-term condition. In your early to middle twenties, you will have a real awakening (suddenly find yourself), will move outward, and will find something upon which you can build with confidence. Each year afterwards brings a gain in self-confidence and accomplishments. Your most successful years (from 30-40) will bring you material gain and outward recognition. You could reach a peak of fame or success around the 37th or 38th year.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Jun 27, 2004 3rd Pass D> (Age 50 3m)

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets

and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Your feelings need to be stirred before you can throw yourself whole-heartedly into any venture. Love, ideals, and a strong sense of your own worth are vital to your well-being and ability to function.

Have Succedent

You may complain of never having any privacy or time to think -- your pattern seems to throw you much in contact with people and the outer world. Being an extrovert, you may have difficulty understanding reclusive types.

Want Cadent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will

also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

Your mind is exceptional in its clarity. All that is mental comes to you without struggle or labor -- ideas, thoughts, mental things of all kinds. The light in your eyes reveals the brightness of your mind to everyone who comes to know you.

Mercury

Your sense of appreciation and discrimination amounts to a very great talent, a real gift. You have a loving and compassionate quality that requires very little education or development. This is a precious commodity. Low burn rate here.

Venus

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

You have a high burn rate when it comes to questions of your independence and autonomy. You tend to rebel and buck authority, and this will be a major source of change and adjustment. You will be concerned with issues of freedom and independence far beyond the average person. A passion for inventions, electronics, and the like can also be expected.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

Trine Type

The Key to your Personality

Your sense of discrimination, the ability to discern gradations and differences, is a crucial element in your personality. You relish and cherish things so. Your value system, the way you enjoy and appreciate everything, is a central factor in your make-up.

Venus

The Personal Hot Spot

The main focus of change and high activity is your value system, your likes and dislikes, the way you feel about things.

Venus

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers, and communications could be a big part of your life.

Mars Inc Uranus

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Dis Neptune

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

Saturn Dis Uranus

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Saturn Inc Venus

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Saturn Dis Jupiter

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Your career or life-path may depend on your talent for responding and making something out of ideas, insights... whatever is new and challenging. The business world may call for your ability to react and build on opportunities.

Jupiter in Second House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we

find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

You are very independent when it comes to your own security and family. This could mean an unconventional-style home or furnishings, or a different approach to sentiment, nostalgia, and history.

All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign,

where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

Not content with appearances, you are driven to reduce everything to the bare

essentials, the nitty-gritty. This compelling urge for integrity and contempt for the superficial may offend some.

Mars in Eighth House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering.
